EXPERIENCE

Jobber

Oct 2023 - PRESENT, **Senior Software Engineer**

Ruby on Rails, Typescript, React, GraphQL

- Led the technical investigation and implementation of an experimental feature, which led to 18% request conversion rate in 6 weeks and > \$250k new gross payment volume (GPV). Coordinated with multiple engineering teams, managing work prioritization, stakeholder communication and alignment with product, marketing and design.
- Mentored junior engineers via pair programming, code reviews and feedback sessions. Championed best practices to elevate team-wide code quality.
- Redesigned sprint workflows, cutting meeting times by 10% and increasing sprint velocity by 15%.

Properly

JAN 2022 - Sept 2023, **Software Engineer**

Javascript, Typescript, React, Next.js, React Native, Python

- Led end-to-end development of dynamic Area Landing Pages to capture location-based search traffic, boosting avg. search rank by 5 (+100% CTR, +60% impressions). Improved technical SEO by leveraging server-side rendering, refining schema and optimizing Core Web Vitals.

Gobble

AUG 2020 - DEC 2021, **Senior Software Engineer**

Ruby on Rails, GraphQL, React, Javascript, CSS (Sass, Tailwind)

- Architected a multistep menu approvals system, reducing runtime and manual errors and cutting weekly generation time by 25%.
- Reduced operational overhead by 75% across engineering, culinary and customer service teams by automating weekly menu consolidations.

Connected (Thoughtworks Canada)

APR 2020 - AUG 2020, **Engineering Manager**

3 direct reports
